Description

ABOUT FCC

FCC is proud to be 100% invested in Canadian agriculture and food. Our employees are committed to the long-standing success of those who produce and process Canadian food. FCC provides flexible financing and capital solutions, while creating value through data, knowledge, relationships and expertise. FCC offers a complement of financial and non-financial products and services designed to support the complex and evolving needs of the industry. As a commercial Crown corporation, FCC is a stable partner that reinvests profits back into the industry and communities it serves. For more information, visit fcc.ca.

RFP SCOPE

FCC requires an implementation ready front end deployment platform that works with our Headless CMS Backend to build the GatsbyJS projects for our public facing websites using APIs. This framework will provide a unified data layer to enable FCC developers to easily combine data from different sources, including the headless CMS, and render them alongside each other.

For further details, refer to the RFP and Appendix A (RFP Schedule, Evaluation Process, Scope and Proposal Instructions) documents that are uploaded to MERX.
