Summary

The primary objective of the Bemidji State University (BSU) website design and development project is to enhance the user experience and align with our evolving brand identity and business goals. Our current web presence is functional but cannot meet the expectations of our target audiences or support our strategic initiatives effectively within our desired timeline without external partnership to guide and implement more comprehensive website upgrades.

Website design work with internal and external expertise is a strategic investment in BSU's digital presence. We are seeking a website design and development partner with comprehensive experience working with higher education clients, extensive digital marketing expertise, and a design-for-the-future mindset.

The primary objectives of the Bemidji State University (BSU) website design and development project is to enhance website user experience, align with our evolving brand identity, and ensure that our web presence performs efficiently to meet our strategic institutional priorities. As such, we are focused on meeting the following, integrated project goals:

- Improved User Experience (UX) – external and internal users
- Search Engine Optimization (SEO) – organic
- Attractive User Interface (UI) – aligned with university identity and branding
- Optimized facilitation
